# 1 Template, 6 images, endless usage

\$359

The bundle includes 6 images made based on a premium 3D scene and 2 revisions. No competitor of yours will have such a lifestyle in their marketing kit, since it's been designed and made from scratch specifically for Premium Library. Below you will see what type of renderings you will get within the offer.

## 1 Lifestyle Rendering

## 2 Finish options

## 3 Close-ups for all Finish Options

# ***Infinite additional imagery***

What is more, you will be able to get any number of new images from the purchased scene at huge discounts.

**\$60** Revision

# Advanced 3D rendering solutions for tile manufacturers

## 3D animation

Shine on social media. Get a video showing the aesthetics of your tile in motion and in a beautiful scene.

**\$90/sec** Promo  
**\$30/sec** Installation

## Client rendering

Give your clients confidence. Just let them see what your product will look like in their houses using CGI.

**\$300** per bundle

## Talent rendering

People buy from people. Have 3D talents added to the rendering in order to make the most of your advertising.

**\$390** per bundle

## Texture swapping

Leverage variety. Showcase different product options in the same lifestyle only at a fraction of the cost.

**\$50**

## Flatlay rendering

Inspire customers. Show your product in an eye-catching composition next to materials it can be used with.

**\$150**

## Lifestyle on demand

Bring your vision to life. Describe the look you have in mind, send references, and get your perfect image.

**\$300** Indoor, per bundle  
**\$400** Outdoor, per bundle

## ***Promo animation***

Consumers are **64-85%** more likely to buy a product after watching a video. This makes a video a must-have asset for product pages, websites, and e-commerce platforms. And with CGI, you can forget about tiresome video shoots and get photorealistic 3D animations for every product.

# *Talent rendering*

Have your product endorsed by 3D characters. Just describe what kind of people you would like to see in your lifestyle, and get your dream ad. A family with kids, a business lady in a smart suit, a kitten stretching in the sunbeam — we will help you with any concept.

***South traditional hallway***

517631 Talent

*Southeast  
mediterranean

# Flatlay rendering

Piece of art that looks like moodboard

## ***Client rendering***

Custom renders for your clients, a proven tool that has already demonstrated its effectiveness in the e-design market with major companies. Gain a competitive advantage by offering your clients a custom rendering service for their spaces. You send us photos of your clients' rooms, and within 2 days, they receive renders of these spaces with your tiles.

# Texture swapping

The product variety is a genuine marketing edge. Use its power to your advantage by showing customers all design variants of your tile in a lifestyle scene. After all, it's so fast and easy.

# ***Lifestyle on demand***

Have a unique lifestyle scene created specifically for your product and based on your vision. All it takes is a brief and reference image.

# What files are needed?

For all the projects you will see here, our clients provided us with detailed briefs and attached all the necessary files. Such comprehensive SOWs allowed us to deliver the results at the costs and within the timeframes you will find by the renderings. Take a look at the list of main elements of these briefs so you could use them.

## CAD Files & Photos

Product drawings (in dwg, pla or pdf file), photos, and sketches (if available).

## References

Photos for lighting, composition, general mood, furniture, decor, and other elements to use in the render.

## Brief File

A pdf file with project information: where to use certain textures, texture examples, names, links, etc.

## Textures

Material textures in high quality, usually as front and side photos of an object or links to them.

## Project Description

General info: how the renders will be used, what project features they are to highlight, etc.

**Fill in the brief now**

If you already have a good-quality 3ds Max, Revit, Maya, or Rhino 3D model of the product, please share it with us. It will help you save money and time. However, the 3D model should be checked by the CGI team first.
