Product 3D modeling

Get an accurate 3D model for your product, and you will unlock hundreds of opportunities for creative marketing. A 3D model is key to material swapping, silos and lifestyles, Augmented Reality, 360-degree views, and many, many more visuals.

Also, you can get a 50% discount if you send us an STP model.

Flatlay rendering

This is the most eloquent type of marketing visual you have ever seen. Through a few carefully selected elements, the 3D artist communicates the look and feel of your product. Moreover, a flatlay rendering shows product detailing, fittings and materials with unparalleled clarity and accuracy.

What files are needed?

For all the projects you will see here, our clients provided us with detailed briefs and attached all the necessary files. Such comprehensive SOWs allowed us to deliver the results at the costs and within the timeframes you will find by the renderings. Take a look at the list of main elements of these briefs so you could use them.

CAD Files & Photos

Product drawings (in dwg, pla or pdf file), photos, and sketches (if available).

References

Photos for lighting, composition, general mood, furniture, decor, and other elements to use in the render.

Brief File

A pdf file with project information: where to use certain textures, texture examples, names, links, etc.

Textures

Material textures in high quality, usually as front and side photos of an object or links to them.

Project Description

General info: how the renders will be used, what project features they are to highlight, etc.

Fill in the brief now

If you already have a good-quality 3ds Max, Revit, Maya, or Rhino 3D model of the product, please share it with us. It will help you save money and time. However, the 3D model should be checked by the CGI team first.
