Why **it matters** for your business

**Stronger product
presentation**

**Improved online
engagement & sales**

**Lower content
production costs**

**More support for dealers
and distributors**

Faster product launches

**Consistency across the
brand**

Before CGI

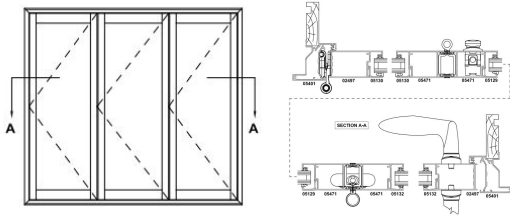

After CGI

How CGI **overcomes** challenges

- Enables to create visuals before products are manufactured
- Helps show every finish, size, and configuration
- Allows to place windows and doors into stunning, realistic settings
- Saves time and budget compared to traditional photography

Simple 3-step workflow

Step 1

Send product drawings and finishes

Step 2

Approve preview renders

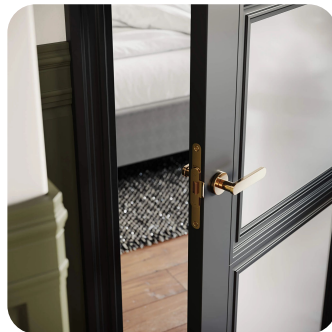

Step 3

Get final high-resolution images ready for marketing
