

# PRODUCT RENDERING SERVICES

 CGIFURNITURE

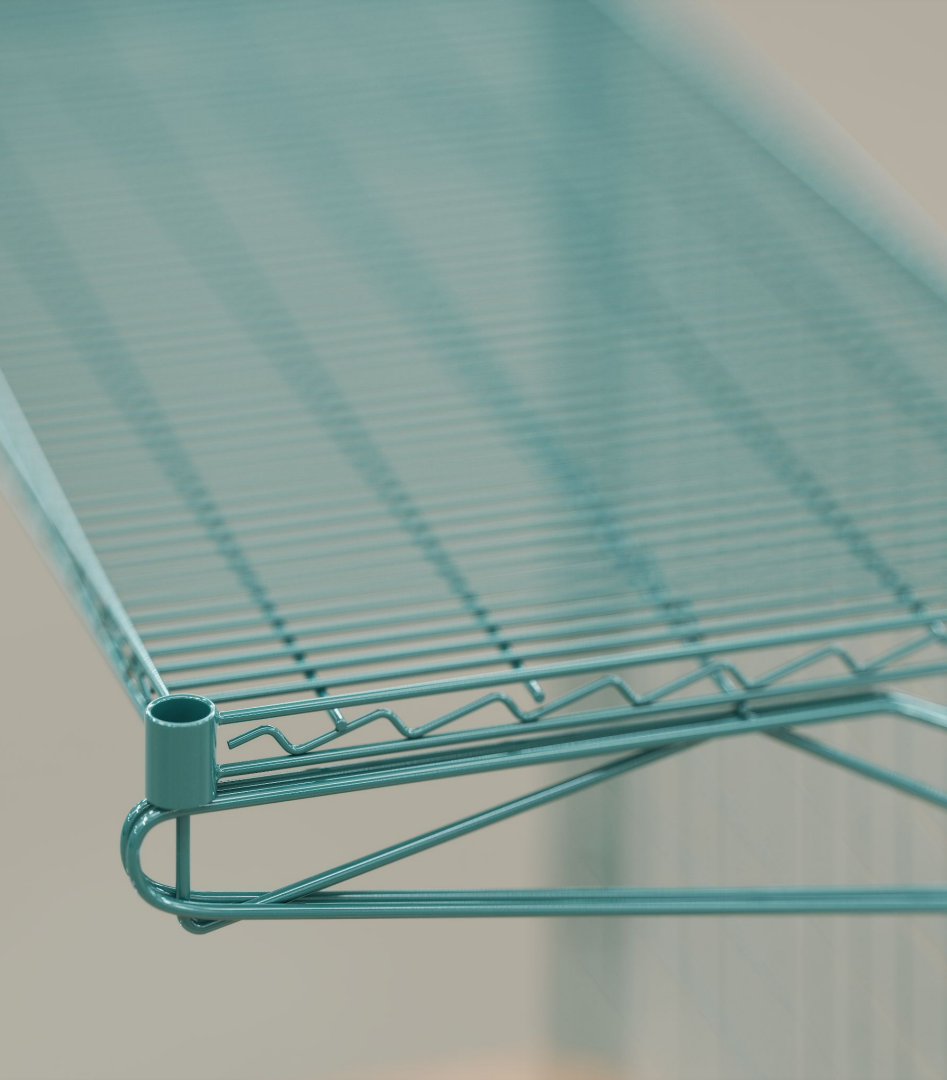

**Silo Product Rendering starts at \$30!**

**Cost for visuals starts at \$225!**

# Augmented Reality

According to ThinkMobiles, **61% of shoppers prefer e-stores with AR.** Moreover, **40% of shoppers are ready to pay more** for the product if they can examine it using AR.

The reason is that AR blurs the line between online and traditional shopping. It allows people to virtually put furniture in their rooms to see if it will be a good fit.

As a result, people spend more time on the site, interact with the product for a longer time, and are more likely to buy.

*Scan the QR code to see the product in AR.*

# 3D Animation

Consumers are [64-85%](#) more likely to buy a product after watching a video. This makes a video a must-have asset for product pages, websites, and e-commerce platforms.

And with CGI, you can forget about tiresome video shoots and get photorealistic 3D animations for every product.

# Lightning Speed for Product Imagery

Here is how fast you will get your CG masterpieces:

- Simple Lifestyle - 3 days
- Complex Lifestyle - 3 days

To get an estimated price for your project don't hesitate to contact us.

# 460 3D Artists

Our studio was founded in 2011 by a group of architects and designers with the goal to provide the best experience to professionals outsourcing 3D modeling and rendering.

Over the years, the company has been divided into 2 brands, each specializing in creating CGI for a particular industry.

# What Problems do we Solve?

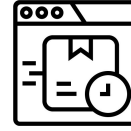

1. Cut production cost

2. Produce content in large volumes

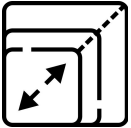

3. Show color/material variation

4. Speed up product-to-market delivery

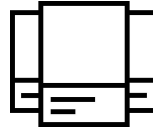

5. Increase visitor-to-client conversion

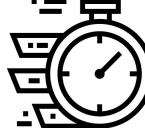

6. Scalability

7. Project storage system/Communication on platform

8. Impeccable consistency

9. Prompt Delivery

10. Design Experts

Is There Something You Need On The List?
